2/9 Seaton Road

Family home renovation

Murrays Bay
Concept and indicative cash budget
18 October 2026

AI concept image

Project overview

Owner renovation

Live in the property and renovate over approximately three years.

Existing footprint

Retain three upstairs bedrooms and the main kitchen and wet-area locations.

Family use

Improve outdoor living, play space, storage and the everyday entrance.

Existing property, before the proposed works

Covered deck and a new side entrance

Full-length adjustable louvre roof

Narrow paved entry

Concept proposal. Measurements, approvals and site quotations pending.

Open lawn for family play

More usable grass

Keep the centre open and concentrate garden beds around the perimeter.

Contour play

Spring-free trampoline and a short slide following the natural slope.

Scope boundary

Retain mature canopy. The selected scheme excludes a pool.

Short galley kitchen and corner dining

Two working runs

Sink and prep bench outside. Fridge, hob and oven on the lounge wall.

Corner seating

Short benches end before corner seating under both windows.

Existing connection

Retain the dining-to-lounge opening. Close only the old exterior entrance route.

A clearer connection to the deck

Opening work

A lounge stacker and French doors retain the solid pier between openings.

Simple finishes

Light flooring, warm white walls and elegant roller blinds.

Consistent outlook

Open lawn and trampoline remain visible. The slide sits outside this view.

Compact bedrooms with useful storage

Main bedroom

Under-bed storage and small floating bedside units. Existing footprint.

Child bedroom

Single bed, shallow desk and wall shelves. Roller blinds keep windows clear.

Bedroom enlargement options

Reclaiming the old foyer is the first option to investigate. Moving a bedroom divider can rebalance space, but it makes the main bedroom smaller.

Design study	Potential effect	Status
Reclaim old foyer	Desk or wardrobe niche for small front room	Measure and design
Shift divider 450mm	Small room 6.73 to 8.03m² Main room 9.77 to 8.47m²	Redistributes floor area
Enlarge all bedrooms	Requires area from another use or an extension	Outside base scope

Rear bedroom remains about 6.49m². Physical bedroom enlargement is excluded from the base budget.

Indicative project cash budget

Work package	Cash allowance
Upstairs kitchen, wet areas and finishes	$99,000
Doors and opening work	$22,000
Rumpus, basement and carport storage	$20,500
Deck and new entrance	$20,000
Garden, trees, earthworks and play	$28,000
Existing roof and exterior finishes	$11,500
Full-length adjustable louvre roof	$42,000
Design, demolition, hire and reserves	$30,000
Renovation contingency, 20%	$54,600
Embankment and driveway, with contingency	$39,375
Total project cash	**$366,975**

NZD including GST. Owner labour unpriced. Site quotations pending.

Capital-gain target and spending limit

At an assumed $1,075,000 resale, the current project scope does not yet achieve the $150,000 capital-gain target.

Purchase price	Gain at current scope	Spend ceiling for $150k gain
$625,000	$83,025	$300,000
$650,000	$58,025	$275,000
$675,000	$33,025	$250,000

At a $650,000 purchase, required resale is $1,166,975

Required resale is a calculation, not a valuation. Selling and legal costs remain separate.

Sale less purchase and project cash spend. Mortgage and holding costs excluded.

Delivery approach

Owner contribution

Demolition and most landscaping
Insulation, linings, plaster and paint
Kitchen and storage installation
Decking, garage and basement fitout

Paid specialist work

Builder support for framing and foundations
Electrician and plumber
Arborist, roof coating and concrete contractor
Louvre supplier and engineering

Indicative sequence

Measure and price. Resolve civil and title scope. Complete approvals and civil work. Stage the interior renovation, then finish the deck and garden.

Items to resolve before funding commitment

Civil design and cost allocation
Confirm the embankment/footing alternative against the disclosed pile design.

Unit title and approved use
Resolve the garage title-plan omission and permissions for common areas.

Measured prices and finished value
Obtain site quotes and a lender-accepted valuation.
Confirm equity, borrowing and staged drawdowns.

Existing marketing plan
Reference only
